

Thomas Perez

Front End Developer

Objective: To learn and master my skill as a programmer while adding value to my team.

Tech Skills: HTML, CSS, Javascript, React ~ **Design Skills:** Photoshop, Final Cut Pro X

Tech Experience:

- [Freelance Web Developer - Portfolio](#), 2018 - Present - [My GitHub](#)
 - Create websites and apps with HTML, CSS, Javascript, and React
 - Portfolio website was created using React and Material UI.
 - Most recent and favorite projects listed below and on portfolio site.
- [Algebra Diagnostic App](#):
 - Students take a quick diagnostic exam that allows them to see which academic standards they are weak in. Afterwards students can begin studying to improve on those weaknesses. Created using javascript, css, and html.
- [PayStub Calculator App](#):
 - Single page app that calculates the total dollar amount new yorkers pay in taxes, social security, and medical insurance. Created using javascript, css, html.
- [Jacob's Fitness Studio \(Website\)](#):
 - Website for a New York City based personal trainer. Constructed using javascript, css, html, and tailwind. Animations such as the slide in, card rotation and fade in are directly from tailwind.
- [Retro Game Corner \(Website\)](#):
 - An online repository of retro gaming consoles. Here you will find all the major home gaming consoles from 1972 onwards . Each thumbnail works as a direct link to its Wikipedia article. Created using mainly html and css.

Work Experience:

- St. Johns County Florida School District, 2021 - Present
- New York City Department of Education, 2016 - 2021
 - Mathematics and Special education teacher.
 - Coordinated and conducted meetings with parents, teachers, guidance counselors, speech therapists, occupational therapists, and psychologists to ensure student IEP accommodations were met.
 - Served as communication liaison between math and special needs departments.
 - Reviewed ATS reports with our SPED compliance teams to ensure we handled parent concerns, state, and district wide updates in a timely manner.
 - Designed individualized education plans for students with disabilities.
 - Coordinated with staff to ensure the instruction plans were being implemented.
 - Attended monthly compliance meetings with compliance officers to resolve any and all compliance discrepancies in our audits.
 - Presented "Professional Development Trainings" for the school principals of District 12" in New York City.
